Department concurs interim Berlin solution which involves GDR/Soviet declarations on access (paragraph 1 C Berlin Section Working Group Report as approved April 30) should seek provision for civil air access. However wording covering civil air access should not permit inference we are ready accept substitution of GDR for Soviet personnel in BASC. This point now dealt with in US Geneva meeting position paper on possible separate solution for Berlin, which says we should as part interim solution in 1 C seek declaration re maintenance existing civil surface and air procedures.
